### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3,5-6, and 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Ricci et al (WO 96/14533) as set forth in the previous Office action mailed 4/10/2003.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4 and 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ricci et al (WO 96/14533) as set forth in the previous Office action mailed 4/10/03.

5. Applicant's arguments filed 7/9/03 have been fully considered but they are not persuasive. Applicant argues that Ricci et al does not teach applying heat to the overmolded metal surface in a separate step following the overmolding step. This argument is misplaced because the instant claimed invention does not require that the metal surface be heated after the step of overmolding. A step of heating the metal surface after the step of overmolded is not found in the instant claims and would constitute a new issue if found in the instant claim.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **EDMUND H. LEE** whose telephone number is 703.305.4019. The examiner can normally be reached on **MONDAY-THURSDAY FROM 9AM-4PM**.
